Solutions

MAKE time for quality care HAPPEN

You want to put more time into creating a modern, safe and homely environment for everyone. But more often than not, you spend your days fighting fires and troubleshooting. Being tied up dealing with supplier issues and multiple vendors all day is the last thing you need; especially when it impacts the care and safety of your residents.

One of the keys to quality care is a hygienic and safe environment. We understand the importance of that in creating a space for healthy and active living. Staples Facility Solutions can help you create and maintain a world-class facility through a program that's customised to you. Whatever your needs, let us take care of them, so that you can get back to what matters.

One size does not fit all

Running an aged-care facility takes precision planning, careful budgeting and tough decision making. Our Staples experts are as dedicated to making quality care happen as you are.

From individual living units to specialist and high-care facilities. Whatever level of dependency your establishment caters for, we provide the full spectrum of facility management and personal care products and services to meet your needs.

In addition to helping you save time and money in the long term, we'll provide a tailored solution that covers it all to achieve the best in care:

- Proactive program management that provides a single point of contact and a consultative approach.
- Cost-reduction strategies that help you achieve year-over-year savings.
- A fast, seamless program implementation – you'll get up and running quickly.
- Stability and dependability from a trusted supplier with the financial strength to offer long-term consistent and sustainable value.
- Fast delivery on thousands of the supplies you need.
- We can deliver five days a week, so that you don't have to buy in bulk and store. Because space is precious!
- Our national distribution network and local stock holding capabilities mean we can get stock to you quickly.
- We work with you to ensure you meet compliance, by providing leading brands and access to a network of trained professionals, including Registered Nurses. No matter what the training requirements, we have an expert to match with and train your team.

Rely on us for a cost-effective program that lets you focus on your patients and residents, instead of procurement.

Infection prevention

You can depend on us to help minimise the risk of healthcare-associated infections. Our Facility Specialists will work in conjunction with your infection control team to meet or exceed requirements. This includes a site audit of best practices, including;

- Hand-hygiene monitoring systems
- Hospital-grade disinfectants and sanitisers
- Personal protective equipment
- Colour coding to avoid cross contamination

Unrivalled range

All the top brands to keep your aged-care facility clean and safe, and your residents living the most active and healthy lives they can. You'll have access to the best cleaning and safety supplies for your entire healthcare facility, that meet accreditation needs.

In the washrooms, think cleaning chemicals, paper products, dispensers, cleaning equipment and more. All the essentials to tackle and control the spread of germs. Our personal care range for residents includes the continence aids and personal hygiene products that you need on hand.

As technologies change and emerge, we'll make sure you're the first to know, with access to the newest products and latest innovations as well as helpful resources and expertise.

Simplified supply chain

Designed to streamline the distribution process, our sophisticated supply chain has national reach, making it quick and easy for you to get the supplies you need – whether you're a single facility or an entire network.

And with a consistent selection across the country, purchasing compliance is easy. You'll get the right supplies delivered no matter where you're located.

Take advantage of consolidated ordering to save money, and receive fewer deliveries.

Expertise and experience

When your residents are relying on you, it helps to have a knowledgeable partner by your side providing technical advice to guide your purchasing decisions.

Our dedicated Facilities Specialists have extensive experience working with long-term aged-care facilities across the spectrum of dependency needs, from retirement villages and independent living, to specialist high-care and dementia units.

We've already helped local and national facilities solve many of the challenges you face today. Here, one of our major customers shares their experience on partnering with Staples Facility Solutions:

“Bupa Care Services partnered with Staples Australia and New Zealand as they provide a single source solution that makes purchasing easy and cost-effective. The Staples business model supports Bupa Care Services in significantly reducing their procurement complexity whilst minimising the cost associated with both the products and the process. Since launching this partnership only a few months ago, Staples have already introduced a number of initiatives towards consolidating our suppliers and supporting Bupa Care Services' drive to achieve a consistent, efficient and effective program across all of our Care Homes.

Staples have been a trusted partner of ours for a number of years in New Zealand and we have confidently extended this partnership across Australia as well.”
